GRENADA, MISSISSIPPI, FRIDAY, MARCH 4, 1938

### SIXTH ANNUAL MARDI GRAS BALL GREAT SUCCESS HERE FEBRUARY 25

Friday evening, February 25, under the direction of Mrs. Eloise Wilkins, the sixth annual Mardi Gras Ball was staged in the Gre- and High School auditorium. Love- ly Ann Neely, daughter of Mr. and Mrs. Joe Neely, was crowned Queen. She was sponsored by the Lions Club.

Sharing honors with Miss Neely was John Ben Perry, Jr., as King. Mr. Perry, retiring president of the Chamber of Commerce, was chosen, because of his outstanding activities this past year in this organization. The procession opened by Larry Noble and Bobby Townes unrolling the carpet for the royal party to begin the Coronation Pageant.

First came six little boys, at- tired in white, Wade Garner, Billy Elmore, Tommy Gene Bowen, Mack Shettles, and Mickey Hay- ward. Miss Dorothy Wilkins, as Miss Duck Hill, and Miss Patter- son of Calhoun City were announ- ced and took their places beside the throne. Miss Lucy Webb Sharp and P. T. LaGrone, King and Queen of 1937, were announced, followed by Mrs. Bert Bays and C. S. Burt, King and Queen of 1938.

Four attractive flower girls, lit- tle Misses Barbara Raynor, Joyce Gunter, Kitha Bailey, and Bobby Gaston next entered to perfect the setting for the reigning King and Queen. Miss Margaret Spain and Miss Lillian York heralded the ap- proach of the King and Queen. Next came Miss Claire Weir and L. D. Boone, the King and Queen of 1937. The seventeen charming maids, escorted by representatives of club or business firm they represented came next: Miss Gene Marders with Roy Drake, Miss Cora Shettles with Walter Garner, Miss Ann Neely with Dick Smith, Miss Catherine Willis with H. L. Hon- eycutt, Miss Rachel Todd with H. J. Ray, Miss Mary Douglas Hon- eycutt with John Presagrove, Miss Grace Peacock with Roger Burt, Miss Ethel George Nichols with Stanley Cruger, Miss Nina Mae Clark with Mr. Poovia, Miss Mar- garet Finney with Andrew Car- rothers, Miss Helen Horton with J. C. Prose, Miss Elizabeth Baker with Donald Sharp, Miss Edith Penn with H. A. Alexander, Miss Peggy Spain with Roger Dolar- hide, Miss Dorothy McCracken with Frank York, and Miss Lynn Theisman with Leon Gealin.

The court dancers, Miss Martha Wiggins and John Butler enter- tained the audience as well as the court, with an intricate ballet number. The surprise of the eve- ning came when Ann Robinson, Bobby Rosa, Kitha Bailey, Jimmie Colley and Irwin Johnson entered carrying a jeweled treasure chest on runners to the foot of the throne, where it was opened by the heralds, it contained a sealed en- velope, bearing the name of the 1938 King and Queen. As their names were announced, Miss Ann Neely and John Ben Perry, Jr., made their entrance from the oth- er end of the hall.

The retiring queen graciously relinquished her throne and train to the new queen, after which the Grand March, led by the reigning King and Queen, began. Immedi- ately following an invitation was extended all to join in dancing to the music of the Mississippi State Cadets.

With the favorable decision of the Supreme Court as regards to the validity of the "T. V. A." it appears that we have the oppor- tunity now that was formerly ques- tionable to obtain the cheaper rates for our electric use, and I am placing in the Drug Stores and at the City Hall a petition asking the Board of Aldermen of our City to call for an election that we may decide ourselves on the subject, for or against.

E. C. Neely, Mayor.

### Farmers Attention

On March 12th all farmers who produced cotton in 1937 will have an opportunity to vote either for or against marketing quotas on cotton in 1938. Don't pass up this opportunity. It means much to you. You are either for or against, so go and cast your vote. Polling places will be at the regu- lar voting precincts throughout the county.

### Miss Bessie Young Passed Away Tues- day March 1, 1938

Member of One of Grenada's Most Substantial Families

Miss Bessie Young, a member of one of Grenada's most substan- tial families, passed away at her apartment in Washington, Tues- day, March 1, at 6 p. m. as the re- sult of pneumonia.

The remains are scheduled to arrive here today on I. C. train number 3 at 11:42 a. m. Funeral services, conducted by Rev. C. A. Pharr, pastor of the Presbyterian church here, will be held from the family home this afternoon at 3 o'clock. Interment will follow at Odd Fellow's cemetery. Officers of the Presbyterian Church, with which she united early in life will act as pallbearers.

Miss Young was the daughter of the late Dr. and Mrs. J. W. Young. She was a graduate of the Univer- sity of Mississippi Law School and had been an attorney in the U. S. Department of Justice for the past 18 or 20 years, working principally in New York and Washing- ton.

Surviving are six sisters, Mrs. B. C. Adams, Mrs. H. C. Adams, Mrs. Willie West, Mrs. S. S. Boone and Miss Jane Young, of Grenada, and Mrs. S. L. Reeves, of Texas, and a brother, Rev. John W. Young, of Greenville.

### Nephritis or Bright's Disease Next to Heart Disease In The State

"In 1916 There Were Only 1221 Deaths From Bright's Disease"

Next to heart disease, the odds are greatest a Mississippian will die of nephritis, or Bright's dis- ease. This statement is from Dr. Felix J. Underwood, state health officer, who adds that deaths from this disease are climbing steadily with each passing year.

"Back in 1916 there were only 1221 deaths from Bright's dis- ease," Dr. Underwood says. "Ten years later this number had in- creased over 400, and by 1936 it totaled 2082, almost twice the figure of twenty years before. With its record of death growing constantly blacker, it is easy to see why nephritis has become an ominous public health menace. It is the more threatening because its prevention is variable and de- pends on many different factors."

"Nephritis is a disordered con- dition affecting the cells of the kidneys. It is caused by inflamma- tion due to bacterial infection or injury from body poisons circulat- ing in the blood. Such inflama- tion prevents the kidneys from fully performing their function of removing certain wastes from the blood and thus brings on ill health."

"Bright's disease may be either chronic or acute," Dr. Underwood says. "Acute nephritis most often affects the young as a result of certain infectious diseases, while chronic Bright's disease usually attacks those middle-aged or over as part and parcel of diseases of the heart and arteries."

"Acute nephritis is an end re- sult of typhoid, smallpox, and diphtheria is now becoming rare because immunization has made these diseases infrequent," the health officer states. "However, regarding the prevention of what seems the most common causes of acute nephritis—scarlet fever, in- fections of the upper respiratory tract, including the common cold, tonsillitis, sinus disorders, and pneumonia—little is known other than good hygiene. It is for this reason that a balanced diet, regu- (Please turn to page 4)

### New Modern Grocery And Meat Market To Open Here Saturday

To Be Operated By Mrs. J. M. Cooley and Mr. Johnny Leverette

After much deliberation the con- test judges finally agreed on Cooley's Quality Grocery as the name for the new and modern grocery and meat market to be op- ened Saturday morning by Mrs. J. M. Cooley and Mr. Johnny Lever- ette in the building formerly oc- cupied by Weir's barber shop.

The grocery department will be in charge of Mrs. Cooley and the meat market in charge of Mr. Leverette. The management needs no introduction to the people of this county. Both have many friends throughout the county as attested by the large volume of business that they have enjoyed in the past.

Their store building has been thoroughly remodeled. All fix- tures and mechanical equipment is new and the best that money can buy, said Mrs. Cooley. Mrs. Cooley stated, "We have a complete stock of new groceries and our produce and vegetables will be fresh at all times." "My meats will be the best that I can buy and I assure the public that they will be satisfied, my policy will be the same as in the past, the customer MUST be satisfied," said Mr. Lev- erette.

The name chosen for their new store was furnished by Mrs. L. C. Angevine and the management re- quests that she visit them Satur- day for the \$5.00 basket of groceries.

"Our store will open promptly at 8 o'clock Saturday morning and we invite our many friends to come and celebrate with us, ours is a cash store but we will make city deliveries," said Mrs. Cooley and Mr. Leverette.

### Emergency Loan Applications Being Received For 1938

Loans This Year Will Be Made, As In The Past Says N. S. Craig, Supervisor

Applications for emergency crop and feed loans for 1938 are now being received at Grenada County Court House by N. S. Craig, Field Supervisor of the Emergen- cy Crop and Feed Loan Section of the Farm Credit Administra- tion.

The loans will be made, as in the past, only to farmers who can- not obtain credit from any other source. The money loaned will be limited to the farmer's immediate and actual cash needs for grow- ing his 1938 crops or for the pur- chase of feed for livestock, and the amount which may be loaned to any one farmer in 1938 may not exceed \$400.

Farmers who can obtain the funds they need from an individ- ual, production credit association, bank, or other concern are not eli- gible for crop and feed loans from the Emergency Crop and Feed Loan Section of the Farm Credit Administration. The loans will not be made to standard re- habilitation clients whose current needs are provided for by the Farm Security Administration, formerly known as the Resettle- ment Administration.

As in the past, farmers who obtain emergency crop and feed loans will give as security a first lien on the crop financed, or a first lien on the livestock to be fed if the money borrowed is to be used to produce or purchase feed for livestock.

Where loans are made to ten- ants, the landlords, or others hav- ing an interest in the crops fi- nanced or the livestock to be fed, are required to waive their claims in favor of a lien to the Governor of the Farm Credit Administra- tion until the loan is repaid.

Checks in payment of approved loans will be mailed from the Re- gional Emergency Crop and Feed Loan Office at Memphis, Tenn.

### Important Meeting In Holcomb Tuesday

There will be a meeting at the Holcomb High School Tuesday, March 8th, at 2:30 o'clock, for the purpose of explaining the 1938 Farm Program.

This meeting will be conducted by G. O. Sanford, Vocational Agri- cultural Teacher, and County Agent, J. L. Cooley. We especial- ly urge that every farmer in Best 5 attend this meeting.

### Miniature Window Lighting Display, Merchants Invited

On Display Director's Room, Grenada Bank, Thursday and Friday, March 10-11

A Miniature Window Lighting Display will be on exhibit in Di- rector's Room of the Grenada Bank Thursday and Friday, March 10 and 11. This is an actual mi- niature Store Front and is being shown by Mississippi Power & Light Company throughout the state. The exhibit has met with enthusiastic response by all those who have witnessed the demon- stration.

The display starts with the typi- cally backward store and permits a series of changes that reaches the full-fledged quality shop in six steps.

The outstanding feature of the display is that it offers a definite plan of Modernizing Moderately in the several stages, ending in a completely modernized store, thus providing Profit Assurance for the modern merchant.

Not only does it show how the merchandising establishments may be improved in appearance and thereby increase sales, but also it offers a method of "sprucing up" the business section of Grenada and branding our city as a Modern, Progressive, Up-to-Date shop- ping center.

Ed Henderson, Division Com- mercial Salesman for Mississippi Power & Light Company will be in charge of the display while it is in Grenada. An invitation is ex- tended to anyone interested, to drop by the bank and see this modern and interesting display.

### Personal Tax Roll Of 1860

(By W. E. Bouzhe)

I am in receipt of copy of per- sonal tax roll of Grenada and fel- low citizens, dated 1860. I en- deavor in a brief way to partial- ly pass on to you. This was the year before the Civil War. Of course I can only write a small part but such record as I have you are welcome to see at my leisure, and in those ancient doc- uments there is much to cause us to ponder. One thing, why should the Civil War have ever been fought? We are won't say for states rights. However no mat- ter how arduous it may seem to us now, slavery was the seed which was sowed causing the dis- cord resulting in secession. The average man just fought, just as the average man in all wars just fight. Nothing to gain save death. Less than 1/10 of the people of the South were slave holders, and even the ones who did, held only one or two. Many of the wealth- iest people owned none. None of the Lake family owned slaves save Mr. Levin Lake who owned three. Many people have said the poor whites of the South were freed just as were the negroes by the Civil War, so impossible was it growing for them to make a liv- ing. One is also impressed with the fact that assessment values were given much higher then than now. Carriages were assessed as high as autos today. There was about one hundred and fifty thou- sand valuation. The average value in Grenada two years ago was five dollars. The average piano was two hundred dollars, the average now is twenty-five dollars; poll tax then was only \$1.00. The tax on negroes was 75c each. There were two free negroes, Peter Johnson and L. R. Wilson, freed for faithful service, love and af- fection. There were nearly 9,000 slaves. Dirks and long bladed knives were assessed at \$1.00 each, sword cases \$1.00. One is also impressed at the enormous amount of money given in for taxes. Where only about \$1,000.00 is giv- en in today, Mr. Bob Williams gave in \$34,000.00 cash and 120 negroes. The greatest number of slaves was owned by Mr. Thomas Kirkman for whom Kirkman was named. He committed suicide af- ter the war. The wealthiest people of the county seems to have been the Williams, Hairston and Jones families, the two last named be- ing ancestors of Mrs. Talbert Thomas and Mrs. West Barzide, also the late Roland Jones family. At the bottom of this article I will give copy of Hairston assess- ment. Mr. Oliver H. Perry owned twenty slaves and \$2,500.00 cash. Mr. William Chamberlaine owned two watches valued at \$200.00, one carriage \$200.00, one piano \$200.00. (Please turn to page 4)

### J. G. Jones To Open Volunteer Food Store Saturday

To Open In Building Formerly Occupied By W. D. Salmon and Company

Mr. J. G. Jones, in a two-page spread elsewhere in this paper, announces the opening of a Vol- unteer Food Store Saturday morn- ing at eight o'clock in the building formerly occupied by W. D. Sal- mon and Company.

Mr. Jones was in the retail gro- cery business in Laurel for several years, moving from there to Eu- pora where he operated a Volun- teer Store in 1935 and 1936. After selling his business in Eupora he became associated with the Grena- da Grocery Company and devoted his time to opening new Volunteer Stores and re-arranging and re- modeling the Volunteer Stores in operation.

Mr. Jones is a brother-in-law of Mr. J. S. Anderson, former man- ager of Morgan and Lindsey Store, who was recently transfer- red to Oxford. Mr. Jones is highly recommended by the citizens of his former locations. He has been in the grocery business during his entire business career and has been termed a successful business man. "I chose the Volunteer Food Store because I realize the advan- tages of present day merchandis- ing and advertising afforded by being one of a group of 62 inde- pendent retail grocers such as the Volunteer group of the Grenada district and further realizing the superior purchasing power that I enjoy by being a member of the Volunteer System," said Mr. Jones.

Mr. Jones said, "My entire stock is new and my vegetables and produce will be the best and freshest that can be bought and I invite the people of this commu- nity to come and trade with me and save the difference."

### Spring Hill Girls and Boys Win North Cen. Crown

Finals Were Held Last Saturday In The Water Valley Gymnasium

(By Wm. Cathey)

In the finals of the North Cen- tral basketball playoff held last Saturday in the Water Valley gymnasium the strong Spring Hill sextet had little difficulty in down- ing a scrapping Casilla outfit by a score of 33 to 14 as Jamie Cooper hit the basket from all angles for the winners. The first few minutes of the clash were close with Casilla leading at the end of the first period 8 to 7. At the inter- mission, however, Cooper's tosses had been finding their mark and Spring Hill was in front 15 to 9. Close guard work on the part of Webb and O. Cooper for the vic- tors kept the Casilla forwards in check in the last three periods when they counted only 6 points.

A faltering Jeff Davis quintet could not match the team work of the Bruce boys and went down in defeat by a score of 28 to 17, thereby relinquishing the cup which they had held for two suc- cessive years and which would have been in their permanent pos- session with another title. Nei- ther squad was able to muster a sustained offense in the opening quarter which ended 4 to 4, but the victors held a 9 to 6 advan- tage at the half. Jeff Davis rallied in the final half but after trailing 18 to 17 at one time, their oppo- nents pulled away in front.

In other contests of the day, the Spring Hill sextet had little com- petition from the Tate Aggies and swamped the inferior outfit 52 to 18 to gain the final round as Jamie Cooper registered 40 points. The Jeff Davis and Casilla boys en- gaged in a close battle with the former winning in the last 30 sec- onds by a 33 to 31 count. The Cas- illa girls displayed surprising form in upsetting the favored Jeff Davis girls by a score of 17 to 17 with the guard work of Coleman featuring the clash.

### ELECTION FOR SCHOOL TRUSTEES TO BE HELD SATURDAY, MARCH 5

#### Preach Thomas Shot

Preach Thomas, of the Best 4 community, is confined to Grenada Hospital as a result of pistol shot wounds received last Saturday night.

The shooting, it is said, was done by a man by the name of Whitten. The affair occurred in Tallahatchie county.

#### 500 To 600 People Attend Spring Op- ening Wednesday

Mammoth Celebration Stag- ed By Grenada Implement Company

Between five and six hundred people attended the mammoth celebration when the Grenada Im- plement Company staged their Spring Opening on Wednesday of this week.

The program started at 9 a. m. and continued throughout the day. Talking pictures, enjoyed and ap- preciated by all as attested by the attendance, showing the farming methods of the "I Don't Care Far- mer" and the wide-awake farmer with the latest of mechanical and power farming machinery, were shown. Brunswick stew, bread, crackers and lemonade were served and it was not necessary for anyone to miss any part of the program.

The management stated that they were well pleased with the response shown and feel sure that all farmers of this community in attendance went away with a bet- ter knowledge of the advantages to be had in farming in the modern way which International Har- vester has provided for them through the expenditure of mil- lions of dollars and years of sci- entific research and experiment.

Mr. L. J. Dubard, of Holcomb, received a turning plow and Mr. L. H. Staten, of Holcomb, received a Dixie Wonder cultivator, both given away by the Grenada Im- plement Company.

#### I. C. To Transfer Headquarters Of Board Of Directors

Announcement Of The Trans- fer Was Made By L. A. Downs, President

Headquarters of the board of directors of the Illinois Central Railroad Company will be trans- ferred from New York to Chic- ago. Announcement of the transfer was made by L. A. Downs, presi- dent of the Illinois Central Sys- tem. Mr. Downs said:

"The principal offices of the Il- linois Central System are in Chic- ago, but meetings of the board of directors have been held in New York because most of the di- rectors have had their own offices in New York and could more read- ily attend board meetings there. On the other hand, men of affairs from Chicago and elsewhere al- along our system lines whose ser- vices we would like to have as di- rectors have not been available because of the sacrifice of time that would be required to attend board meetings in New York."

"In order to remedy this situa- tion, we have decided to increase the board from twelve to fifteen members, in addition to the gov- ernor of Illinois, who is an ex-of- ficio director of the company un- der the terms of our charter from the state, and to elect a number of new directors from along our system lines. Some of our present New York directors, including W. A. Harriman, chairman of the ex- ecutive committee, will continue on the board, but a majority of the enlarged board will be drawn from the territory in which the Illinois Central System operates. This will enable the transfer of board meetings from New York to Chicago."

"The view has been expressed by our chairman, Mr. Harriman, that unnecessary concentration of industrial control in New York is not desirable, and he has publicly suggested that the direction of business companies should be transferred wherever feasible to the seat of their operations. We are putting that suggestion into ef- fect on the Illinois Central. (Please turn to page 4)

For information to all patrons of the Common and Consolidated Schools having only three trustees, I am submitting the following quotations from the school laws relative to qualifications of trust- ees and of those who can vote in the trustee election, the time and place for, and procedure in holding the election:

The election must be by ballot. No proxies will be allowed.

Qualifications of Trustees

To be eligible to the office of trustee in a common school dis- trict or a consolidated school dis- trict having three trustees, a per- son must be a bona fide resident of the district, a qualified elector, not an employee of the school dis- trict; nor a teacher in any public school.

A majority of the trustees must be patrons of the school.

Procedure

The holding-over trustees shall make a list of all patrons of the school, including both parents of the child. And the names of those who will be patrons in September if they have lived in the district one year. Add to the list already made the names of all those not found on the poll books as qual- ified electors. Unless this list is prepared before Saturday, much confusion will result.

Who Are Qualified To Vote In The Election Of Trustees?

ANSWER: A person must be a bona fide resident of the school district, a qualified elector, and possess one of the following qual- ifications:

1. Must be the parent or guardian of a child who has attended school in the district for eight (8) weeks during the session, or
2. Is the parent or guardian of a child who will be six years old before the first day of Septem- ber and enrolled in the school dis- trict for one year, or
3. Owns realty property in such district assessed on last year's roll of the county.

These Questions Are Frequently Asked

1. Can a person who is not a patron of the school serve as trustee? Answer: One of the three may be a non-patron.

2. Can a member of the county school board be elected trustee? Answer: No.

3. Can the trustees go back of the poll book and check the sher- iff's poll tax receipts to determine if a person is qualified to vote? Answer: Yes.

4. Can a person be a trustee of one school and patronize another? Answer: No.

5. Is a person required to pre- sent the poll tax receipt before he is allowed to vote? Answer: Not unless some question is raised in regard to his eligibility.

6. If a person whose name is not on the list prepared by the trustees insists on voting, what should be done? Answer: Permit the person to vote under protest as in a regularly conducted elec- tion, that is; put the ballot in an envelope, write thereon the name of the person voting, seal it, and get instructions from the county superintendent as to whether it can be legally counted.

Sincerely,  
O. D. SPRATLIN,  
Supt. Education, Grenada County, Mississippi.

#### An Essay Contest Being Sponsored

(By J. S. Vandiver)

The State Department of Edu- cation is sponsoring an essay con- test on the subject, "The Effects of the Use of Intoxicating Alco- holic Liquor as a Beverage," as authorized by law.

The members of the senior class of each high school in the state are eligible to participate in this contest. The pupil who wins this essay contest will be given a one- year scholarship in any one of the state aided colleges with all ser- vice fees paid in said college. The board of supervisors of each coun- ty is authorized in its discretion to contribute, not exceeding \$100.00 out of the general county fund to- ward paying the expenses of the author of the contest prize essay in attendance as a student at such college in the state as the pupil may choose to attend.

Rules governing this contest are being sent to county superintend- (Please turn to page 4)

## Why Have Marketing Quotas

(By F. J. Hurst)

On March 12 all farmers who produced cotton in 1937 will have an opportunity to go to the polling places announced in their county and vote either for or against marketing quotas on cotton in 1938. During the past few days we have learned that many farmers do not understand the meaning of marketing quotas and many of them think that marketing quotas will apply like the old Bankhead Act quotas.

There is a wide difference between marketing quotas and the old Bankhead Act quotas. Under the Bankhead Act each farmer was given a specific number of pounds of cotton he could sell without paying a tax. Even if he otherwise cooperated in the program but practiced good farming and the season was favorable and he produced more than his quota he had to pay the tax. The Bankhead Act placed a penalty on good farming and worked a hardship on many good farmers and cooperators.

The marketing quota plan is entirely different. Under this plan each farmer will be given an acreage allotment. And he can sell

all of the cotton he grows on his allotted acres without paying any penalty. For example, if a farm is allotted 10 acres for cotton and the farmer produces 500 pounds of lint cotton per acre he could sell it all without paying any penalty.

The penalty is placed on the non-cooperator. If a farm is allotted 10 acres and the farmer should plant 12 acres he would have to pay a penalty of 2 cents a pound on the cotton grown on the 2 acres in excess of his acreage allotment.

In addition, if a farmer does not cooperate and plants above his allotted acreage, he will not receive any conservation payments under the agricultural conservation program, he will lose his cotton price adjustment payments on his 1937 crop and he can get a loan at only 60 percent of the rate to cooperators and that only on the cotton grown in excess of his allotment.

Here are 10 reasons farmers should consider when they go to vote on marketing quotas:

1. Full benefits go to the cooperators, cooperators can sell all the cotton they grow on their allotted acres regardless of how much it may be without penalty. They will receive conservation payments on the normal production on their allotted acres at the rate of 2.4 cents a pound and they can obtain maximum benefits of loans.

2. Marketing quotas will serve as an effective measure for adjusting the supply of cotton to demand, reduce the huge supply that has been piled up and bring about an improvement in cotton prices. Normal crops of cotton have always brought more money than big crops.

3. Marketing quotas will make loans available to farmers. If farmers vote against marketing quotas there will be no loans on cotton no matter how low the price may go.

4. Marketing quotas will serve to prevent the price of cotton from going still lower. The present world supply of cotton is so large that another big crop would probably push the price of cotton to still lower levels.

5. This plan encourages more efficient production of cotton on the allotted acres. It puts a premium on good farming. Farmers can grow all of the cotton needed on fewer acres, and then have more acres to use for growing crops for home use and for other purposes.

6. There is no limitation on the sale of cotton produced on the allotted acres. Even if a farmer should grow as much as two bales of cotton per acre on his allotted acres he could sell it all without penalty.

7. The new plan protects the cooperator by providing that the non-cooperator receives no payments of any kind under the agricultural conservation program.

8. It provides that only cooperators may receive cotton price adjustment payments.

9. Cooperators will be eligible for loans on all cotton produced.

10. Noncooperators will pay a

penalty of 2 cents a pound on all cotton produced in excess of his marketing quota.

Marketing quotas will not go into effect in 1938 unless at least two-thirds of all farmers voting in the referendum on March 12th vote for them.

It is estimated that if all of the farmers of the state participate fully in the 1938 farm program they will receive a total of approximately \$30,000,000 in payments this year.

Nor does this take into consideration the chance to increase production of food and feed for home use, improvement of soil fertility and stabilization of farm prices.

## POTASH

Decide whether the

acres you plant are going to work for you or whether you are going to work all season on land which will bring you little return. Properly fertilized acres are always on the job. Make sure your cotton fertilizers give the land enough potash to keep the cotton crop growing, free from rust (potash starvation), to satisfactory yields of good quality which will pay you profits. Fertilizers applied at the rate of 400-600 pounds per acre should contain 8% potash to insure young cotton plants receiving enough of this necessary plant food. Later in the growing season, more potash can be added in a nitrogen-potash top-dresser if required. Consult your county agent or experiment station about the fertility of your soil. See your fertilizer dealer about the right amount of potash in your fertilizer. Write us for further information and literature.

"Grenada County Negro Home Demonstration Club Women Are Making Progress"

The writer of this article holds that one does not have to be possessed with prophetic vision to determine whether or not the Negro Home Demonstration Club Women, under the conscientious leadership of their County Home Demonstration Agent, Miss Vera Lee Sledge, are making progress in both organization and work. All indications point toward the fact that Miss Sledge has both courted and married her job, and is now giving it ever increasing devotion. Her concerted aim and purpose, is to work with her club members, in both the art and science of making their best better. It seems from attitude of each club member that the agent has succeeded in getting them to adopt this slogan: "Good, better best, never let it rest till good is better and better is best." Substantiating this statement, there is now in operation among the club women of the county, and exterior. Home Improvement Contest. The purpose of which is to create a desire among the rural people to improve the fences, barns, yards and the outside of their homes by the use of whitewash and other in-expensive paints.

Through Governor White's good road movement, the Home Demonstration Agent has impressed her club women, and they in turn have impressed their husbands that notwithstanding the fact that only a few people may leave the highway and come into the home, the whole world passes the door, and 98 percent of them judge how things are kept on the inside from what they see on the outside.

The successful way in which the agent does her work is due in part to her past training and past experience and in part to her contact with others such as Miss Mary Doney, Food Preservation Specialist, whose spirit still lives among the club women of Grenada county. The contests planned and carried out by her were instrumental in getting more budgets planned and filled. Miss Doney presented Miss Sledge with a book very valuable in her work entitled, "Lippincott's Home Manuals" edited by Professor Benjamin E. Andrews, Ph. D. professor of Household Economics, Teachers College Columbia University. This book was given as a token of excellence in the 1937 Canning Program in Grenada County.

The names of the clubs and persons entering the Home Improvement Contest are: Hendersonville Club, Alberta Holmes, Clatter King, Lela Chamberlain, Estell Williams, Josie Washington, L. A. Knox, Estell Davis, Cornelia Perry, Virginia Horton, Evelyn Parker, Lois Henderson, Leflore Club, Emma Bohannah, Beatrice Miller, Alberta Miller, Velma Davis, Anna Weathers, Lula Reynolds, Lula Stinson, Ooxberry Club, Virginia Perry, Ella Williams, Lula

Person, Carrie Bridges, Effie Scott, Lula Fisher, Ella Beth, S. M. Bridges, Anna Gray, Josephine Johnson, Carrie Luma, Dunnaway Club, Birdie Brown, Birdie Mullen, Lela Knox, Carradine, Pleasant Grove Club, Mollie Hankins, Rosa Millhouse, Eupora McCain, Irma Willis.

Anyone may enter the contest by enrolling under the name of the club and community in which she lives. The contest will close May 30, 1938, at which time The Better Homes Week will close, which is a National Movement beginning May 24, ending May 30.

## NATIONAL WILDLIFE REFORESTATION WEEK MARCH 20TH TO 26TH

Jackson, Miss., March 2.—A proclamation designating March 20-26 as National Wildlife Reforestation Week and calling on Mississippians to participate in its observance was issued today by Governor Hugh L. White.

Coincident with issuance of the proclamation, Ben M. Stevens, of Richton, secretary of the State Game and Fish Commission and southern regional director of the General Wildlife Federation, announced that programs will be held over the state during the week in keeping with national observance of the purposes of the conservation group.

"The programs stress and depict the plans of the federation for restoring to our woods and streams the game and fish which in the past have been so abundant," Director Stevens said.

Plans for state observance have been outlined by Director Stevens and Homer Williams, of Grenada, state chairman of the state federation which is an affiliate of the national organization.

Commenting on the work of the state group, Governor White stated that as a unit of the general federation, "it has undertaken an extensive campaign which will assure future generations some of the wild life which has been fast disappearing during their generation."

"The General Wildlife Federation has designated the week of March 20-26 in which to call attention to the necessity of the type of work which it is undertaking and has urged that all Mississippi sportsmen and those interested in outdoor life take an active part in celebration of this week," the governor said.

## OFFER HOME BEAUTIFICATION PRIZES FOR 4-H CLUB MEMBERS

Four-H clubs of the state are going in with new enthusiasm for beauty—and more than skin deep. It is planting and landscaping their home grounds.

Many fine examples of what club members can do may be seen throughout the country. They are guided in the work by plans and outlines supplied by the State Extension Service which are designed to give the most lasting and attractive effect. The outlines are distributed by County Agents and Local Leaders.

Over 150,000 boys and girls carried on such work last year, which is expected to be increased thru incentives offered for the first time in the National 4-H Home Ground Beautification Contest. It provides a gold medal for the club member making the best county report, and a \$50 gold watch for the best showing in the state. The clubster rating highest in each Extension receives a trip to the forthcoming National Club Congress, and the best of the four wins a \$300 scholarship, which is given with all other prizes by Mrs. Charles E. Walgreen, of Chicago, nationally known garden club enthusiast.

No entry fee or other obligation is incurred by club members

taking part. The contest is supervised by the state and federal extension agents.

## TENANTS BECOME OWNERS

Little Rock, Ark., March 3.—One out of nineteen farm tenants who farmed with Farm Security Administration rehabilitation loans in 1937 in Arkansas, Mississippi and Louisiana were able to make down payments on farms of their own during the year, T. Roy Reid, regional FSA director, announced here.

## IT IS DANGEROUS

It is dangerous to sell a SUBSTITUTE for 66¢ just to make three or four cents more. Customers are your best assets; lose them and you lose your business. 66¢ is worth three or four times as much as a SUBSTITUTE.

## Twentieth Century Club

Tuesday, March 1st, The Twentieth Century Club was entertained in the home of Mrs. J. T. Keeton, with Mrs. W. B. Waterman as co-hostess.

After a short business session, the President, Mrs. Matthews announced the program numbers.

The subject for study was, "Use of Leisure in the Home." The first topic, "The Challenge of Leisure" was capably presented by Miss Estelle Turner.

The second topic was "The Modern Woman and Leisure," by Miss Elizabeth Jones. In covering this subject, Miss Jones used Tracy Byers book, "Martha Perry, The Sunday School Lady of Possum Trot," a book based entirely on authenticity.

Miss Berry, now nearing her seventies has used her life's leisure in building up and perfecting that wonderful institution, "The Berry Schools, Inc.," that is located about six miles from Rome, Ga. and stands as a living "Challenge of Leisure."

It was while at this school our beloved Miss Laney met her tragic death.

Miss Jones having visited these schools, brought to us her personal impressions of Miss Berry's sweet personality; the schools in general; the appreciated mountain pupils and the settings of the buildings amid the scenic beauty of Georgia.

As a special musical number Mrs. J. W. Giffey graciously and sweetly sang "To a Hill Top" by Ralph Cox. She was accompanied at the piano by talented Mr. Roger Dollarhide. At the conclusion of the program the hostess assisted by Mesdames Max McCormick and Jim Keeton served delicious canapés, sandwiches, dates, cake and coffee.

Besides the twenty-six club members and guests appearing on the program, the other guests present were Mesdames Carry Clanton and E. L. Boteler.

## Miss Betty Sherwood Acts As Mistress of Wardrobe At M. S. C. Friday

M. S. C. W. Columbus, Miss. Feb. 28—Special to Grenada Sentinel—Miss Betty Sherwood, Grenada, sophomore at Mississippi State College for Women, acted as mistress of the wardrobe for the production of Ibsen's great play, "A Doll's House," which was presented Friday, February 26, in Whitfield Auditorium under the direction of Miss Virginia Harrison.

Great credit must go to the production staff for the performance moved without a hitch from the first curtain to the last. It was one of the best and smoothest performances ever given on the college campus.

Mr. and Mrs. Harry T. Steuter, of Memphis, spent the week-end with Reverend and Mrs. C. S. Liles.

Miss Stella Scott, of Morgan City, is the guest of Mr. and Mrs. F. G. Calloway.

Miss Lucy Webb Sharp and Miss Elizabeth Wilkins, of Ole Miss, were home Friday to attend the Mardi Gras Ball.

Mr. and Mrs. W. H. Harris are the proud parents of a baby girl.

Misses Mary Ann Scott and Joyce Matthews, of Mississippi State College for Women, spent the week-end with their parents.

Rowland Jones, of Jonestown, attended the Mardi Gras Ball here Friday night.

Miss Martha Bea Brown, of Ole Miss, was home Friday for the Mardi Gras Ball.

Heck Lane, M. M. Batson and George Baker, of State College, spent the week-end here with their parents.

Mrs. Etta Dudley, of Pine Bluff, Ark., spent last week at home.

Mrs. W. H. Friddy, of Memphis, was the guest last week of Mrs. Gertrude Marders.

Miss Gene Marders and Miss Mary Douglas Honeycutt were co-hostesses Friday evening at an intermission party, at the home of Miss Honeycutt's parents.

Miss Ann Smallwood, of Jackson, was the guest of Miss Cora Mullen Friday.

## Alexander-Province

Miss Dorothy Province and Reid Alexander were married Sunday morning in Batesville, Rev. J. W. Lee, of the Baptist Church, saying the marriage vows. Mrs. Alexander is the lovely daughter of Mrs. C. C. Province, she received her education at the Grenada College. Mr. Alexander is the son of Mr. and Mrs. Ward Alexander and is a graduate of Gupton-Jones College in Nashville, Tenn. Immediately after the ceremony Mr. and Mrs. Alexander left for Nashville, where they will spend their honeymoon. On their return they will make their home in Greenwood. Mr. Alexander is employed at Lee-Knight Funeral Home. Miss Mary Rose, Miss Dorothy Spruill and Walter Garner were guests.

## World Day of Prayer, March 4, 1933

Beginning in New Zealand and the Fiji Islands, and spreading as the day dawned around the world, women will kneel in prayer and lift their voices in praise Friday until after 40 hours of devotion—the day ends at Gamball on St. Lawrence Island off the coast of Alaska, 30 miles from the date line and about the same distance from the Arctic circle.

Grenada women will serve the Day of Prayer Friday 1:30 o'clock in the Methodist Church. Members of all denominations have been invited to take part on the program. The theme "The Church, a World Fellowship," has been selected. The program was prepared by Alice E. Henderson, Sumner, Christ-Church New Zealand, a pioneer Missionary to India, under the New Zealand Presbyterian Church.

We approach the World Day of Prayer at a time when a war torn and bewildered world stands desperately in need of the guidance of Almighty God. Let us gather together the largest and most earnest group of Christians we have ever had, and in prayer and supplication endeavor to find God's will for us and for the world. Offerings taken at these meetings in the U. S. A. are designated for four interdenominational missionary projects as follows: Christian Literature, Migrant Work, Indian Youth in U. S. A. and Women's Union Christian College in the Orient.

## Kills Fourth Rattler This Year

Bleucher Ingram, colored farmer, living on the farm of Miss Louise Majet, eight miles east of Grenada, told The Sentinel last Saturday that he killed three large rattlesnakes earlier in the week. This makes four for Bleucher this year, having killed one measuring eight feet on January 31.

One of the snakes killed by Bleucher last week had 27 rattlers, so he reported.

### SUPPORT THE HORSE SHOW

Grenada business men endorsed and supported the horse show held here last July almost 100%. We believe they will do the same thing this year.

The show last year was acclaimed afar and near as one of the best staged anywhere in the tri-state territory. Grenada's was headlined in papers throughout Mississippi as well as neighboring states. We had visitors from several states who went away with a good word for Grenada. No value can be placed on the advertising that this community received as a result of the horse show.

We are in a position to obtain a much greater amount of publicity this year as we attained an enviable record when we staged our last year's show. Let's all pull together and put on a bigger and better horse show than we did last year. It can be done. The time is short, so do your part.

### NATIONAL USED CAR EXCHANGE WEEK

In sponsoring National Used Car Exchange Week the automobile industry is doing a vital service to the nation.

When the history of the present recession comes to be written, it may surprisingly be recorded that the upturn began in March, coincident with the national effort of the industry to liquidate its used car stocks, improve new car sales and start the factory wheels turning again at full speed.

The automobile industry is a major factor in the national economy. Upon it such industries as steel, rubber, petroleum, glass, textiles and many others depend for an important share of their business. When the motor industry is booming the country booms. When it slows up so does business throughout the nation.

What happened to the automobile industry last fall is common knowledge today. Used cars clogged the market as winter came on. New car sales slowed down because dealers could no longer handle trade-ins in normal volume. Unable to move out new cars, manufacturers were forced to restrict production. Thousands of wage earners were thrown out of work or put on part-time schedules. Business hesitation developed. The average citizen drew his purse strings, waited to see what was going to happen. That is what is the matter with business today. No one is to blame. The law of supply and demand hasn't yet been repealed.

Now the automobile industry has determined courageously to attack the problem at its source, to stimulate used car sales so that normal production of new cars can be resumed.

National Used Car Exchange Week has a solid foundation. Wise men buy when prices are lowest. Never before has the industry been able to offer such a wide selection of modern used cars at rock-bottom prices. Tomorrow and next week will offer the American public a golden opportunity to buy a better car.

Mr. Alvin Macauley, speaking for the automobile industry, told the whole story in his announcement. Said he:

"Too many unsafe, worn-out, unreliable cars, without modern safety brakes, safety glass, large tires and steel bodies, are in operation today. Too many are costly to operate.

"Many of these cars can be replaced during National Used Car Exchange Week—to the great advantage of the buyer—with newer, up-to-date cars, without initial investment beyond the owner's present car, and on terms which suit the pocketbook of the average person. These cars offer modern equipment, and a good investment in comfort, safety and economy."

### TIME FOR A CHANGE

The competitive plight of the railroads is graphically illustrated by a statistical survey recently published by the Missouri Public Service Commission.

This survey shows that the state's average annual cost to truck a ton of freight over its highways is far in excess of what the state can possibly get out of the taxes paid by the truck. For a nine-ton truck, for instance, it costs the state \$1,216 a year to provide a roadway—and it gets back in taxes \$535. A similar discrepancy between cost and return is shown in the case of all other sizes of trucks, from little half-ton jobs, up.

What this means, as the Produce Guide of New York points out, is that Missouri is in effect handsomely subsidizing trucks. And what Missouri is doing, all other states are doing to a greater or lesser extent. The railroad industry, on the other hand, must build and maintain its own rights of way, and is heavily taxed by all units of government.

The time is long overdue for adopting a fair and reasonable national transportation policy. That policy must include fairness to all and favoritism to none. It must do away with restrictive, expensive and unnecessary laws, such as the proposed train-limit measure.

And it must guarantee all carriers, especially the near-bankrupt railroads, a living wage—that is, a rate level that will allow a profit after expenses are paid. And, finally, it must provide for regulation that is fair and elastic, and does not assume functions that belong to management.

The railroads are the biggest item in the transportation picture—and they have been given the worst treatment, as the thousands of miles of track now in the hands of receivers, testifies. The result is a tremendous loss of employment, of construction, and of purchasing power that would indirectly benefit every worker in the country, including all other branches of transportation. In the name of the public interest, it's time for a change.

### THE NON-TAXPAYER IS NON-EXISTENT

Residents of Northern California have been given 9 per cent reduction in natural gas rates, which will total a saving of \$2,000,000. Commenting on this, the San Francisco Chronicle makes a telling observation:

"If it were not for certain increased taxes on the gas companies . . . the saving could have been \$1,000,000 more."

"This particular illustration is important merely because it happens to be publicly and officially certified. Practically, the consumers of gas are so numerous that this particular tax passed on to them will amount to very little on any individual bill. But the point is that it is passed on, and that in the case of a public utility the laws of the state require it to be passed on. In other cases the even more immutable laws of economics pass it on. So every consumer of gas or electricity is a taxpayer, even if he never sees a tax collector or personally signs a tax check . . .

"We are all taxpayers. What some of us lack is tax consciousness. We think the man who signs the checks pays the tax, and that it makes no difference to the 'non-taxpayer' how high the taxes are. If this 'non-taxpayer' realized that he paid those taxes himself he might care."

Half the cost of cigarettes, more than half the cost of liquor, a large part of the cost of food, shelter, fuel, clothing and everything else—this is the tribute inexorably demanded by the tax collector. His unseen shadow falls over every commercial transaction, whether it involves a nickel or a million dollars. And you, the consumer, the eater of food, and the wearer of clothing, eventually pay the bill, and in full. No one, unless it be a hermit who never leaves his cave in a remote hill, is a "non-taxpayer."

### INCREDIBLE—BUT TRUE

"Incredible—but true" is the best description that can be applied to the latest chain tax measure proposed in Congress.

The bill provides for a Federal chain store tax ranging up to \$1,000 a store for systems operating more than 500 outlets. This may seem bad enough—but it is further provided that the taxes are to be multiplied by the number of states, including the District of Columbia, in which any chain operates!

Passage of such a bill, of course, would mean complete and swift destruction of all chains. For example, one large chain system would be taxed \$49,000 per store for all outlets in excess of 500. Business Week says that the total tax that would be paid by the largest chain food system would come to \$600,000,000 a year—and for a large variety system, \$90,000,000 a year! Obviously, it would be impossible to pay these taxes.

If there ever was an example of the fact that "the power to tax is the power to destroy" this is it. And is the taxing power being used, in this proposal, to destroy something that is inimical to the public welfare? Hardly. A few years ago the Federal Trade Commission reported, after a long investigation, that the chains, far from destroying independent stores, do only about 20 per cent of America's total retail trade. Through consumer-producer campaigns, the organized chains have performed yeoman services for agriculture. In brief, they aid every element in our national life.

### AN ESSAY CONTEST

(Continued from page 1)  
ents and superintendents of high schools. Any pupil who is interested in this contest may get complete details by contacting either the superintendent of his school or the county superintendent of education.

Pupils from forty-seven counties in the state participated in the contest last year, and it is our hope that every county in the state will have a representative this year.

This is a very worth-while and important contest and we feel that the teachers of every high school in the state would be justified in requiring every senior to write an essay. It will not only give to them much valuable training and information, but will aid some boy or girl materially in a year's work in college.

### NEPHRITIS OR BRIGHT'S

(Continued from page 1)  
lar hours for rest, work, and play, and proper clothing are earnestly advocated in preventing not only colds and the like but also the possibility of acute nephritis.

"Regarding chronic nephritis, excessive protein diet and high blood pressure are the most usual contributing factors. It is recom-

mended that meat be eaten only once a day, that excessive use of highly seasoned foods and alcohol be avoided, that high pressure activities be limited, and that general good hygiene be practiced to prevent chronic kidney disease. In order that the first signs of Bright's disease may be detected early, a thorough medical examination, including urinalysis, is urged every year."

### PERSONAL TAX ROLL OF 1860

(Continued from page 1)  
This Mr. Chamberlaine was the grandfather of Mr. Harry and Mr. Ben Adams. Mr. Richard Nason had \$4,000.00 and thirty slaves. Mr. Richard Nason, Jr., had \$5,000.00 and thirty-seven slaves. Col. Statham, afterwards killed at the battle of Franklin, owned 37 slaves and \$23,500.00 cash. My father owned 24 slaves and my grandfather William owned 56. Eight of those negroes my grandfather owned were bought for his son, Judge R. W. Williamson and a note given for same from a man who was a Colonel in the Northern army. After the war my grandfather contacted payment of the note on grounds that the negroes were free at the time the note became due. It was carried to the U. S. Supreme Court but he had to pay the note. Dr. Green

Crowder owned 96 negroes, Mr. Ransom Crowder owned 40. One more thing which impresses one is the enormous stocks of merchandise carried in some instances, some firms carrying as much as any five or six firms of today. Mr. Levin Lake owned merchandise of \$30,000.00 and three slaves. William Lank owned \$38,000.00 merchandise. Dr. Kahn, Mr. Kosman's father-in-law, owned \$15,000.00. L. Newberger owned \$35,000.00. But back to slaves, one curious thing is the number owned by the preachers. The Baptist preacher owned 43 and the Methodist preacher who united the two towns, Rev. Lucas, owned 48, and both owned much land. The Stokes Brothers owned 78 slaves but enough for those and I end this, giving the Hairston personal assessment:

Money \$33,000.00, four saddle horses, \$400.00, two watches, \$200.00, 50 cows \$500.00, carriages \$100.00, piano \$300.00, 143 slaves. I know statistics are laborious figures, confusing. I could have filled up The Sentinel with this article, but too much might be out of place.

### I. C. TO TRANSFER

(Continued from page 1)

"One immediate benefit which we expect to derive from this change will be to obtain the services as directors of a number of outstanding men from Chicago and other important cities on the system—men who are intimately acquainted by reason of their residence and their own business with the needs and problems of our territory. The addition of their services in directing the affairs of the Illinois Central System will be of obvious value."

"No business is more intimately identified with its territory than a railroad. It is a substantial citizen of every community on its lines. Its payrolls, purchases and taxes are most important to them. Its services are vital to every per-

son living along its lines. "We believe the action we have taken will emphasize this relationship in the case of the Illinois Central System. It will give our board the first-hand knowledge of the people we serve which is so essential to progressive management, and it should also impress upon the people in our territory that the Illinois Central is truly

their railroad and that they have a tremendously important stake in its success. Thus we anticipate an even greater intimacy between the railroad and the communities and the people it serves."

"This move has been considered for some time, and the action we have taken represents the unanimous decision of our board of directors."

# NATIONAL USED CAR EXCHANGE WEEK IS UNDER WAY

*The Automobile Industry Marches On*

YOUR GREAT CHANCE TO OWN A BETTER CAR

When you turn to the Automobile ads in this paper today, you will see that a remarkable thing has happened.

Suddenly you find yourself faced with one of the greatest opportunities you've ever had to drive a better automobile.

Automobile dealers here and in every section of the country are co-operating in one big NATIONAL USED CAR EXCHANGE WEEK. Never in the entire history of the automobile industry has there been an event like this.

From every angle, this week spells OPPORTUNITY in capital letters for used car buyers. Automobile dealers have an unusually wide selection and there are many exceptional values. Prices are way below those of a few months ago. This is the right season to buy because the good driving days of spring are just around the corner.

Many of the cars offered in this one-week bargain sale are 1937, 1936

and 1935 models. For very little money you can have a better used car with important new features introduced in the last few years.

Eleven million cars in this country, built before 1931, are still registered for service. Many lack steel bodies, safe brakes, large tires, many other modern safeguards. If you are driving one, this is your chance to switch to a safer, better car. And think what these fine modern cars offer in pride of ownership and all-round satisfaction. Beautiful modern styling; more

room, more comfort; more luggage space; quieter, more powerful engines; better operating economy; quiet gears; ventilation; dozens of conveniences.

You may not even need cash to make the switch to a better car. Your present car may cover the down-payment. NATIONAL USED CAR EXCHANGE WEEK ends Saturday night, March 12th. Study the Automobile ads in this newspaper for the choicest bargains.

## Federal Laboratory For New Cotton Use Is Dream Come True

Long Sought Institution to Expand Fields of Cotton Usage, May Find Home in Mississippi

Not least among the beneficial provisions of the new farm act is the authorization for laboratories to devise and prove the practicality of new uses for farm products, commented J. C. Holton, commissioner of agriculture, in discussing the need for extended cotton markets.

Really remarkable progress has been made throughout the field of chemistry. Hundreds of new products have been devised, and have found their place in industry and in everyday use. A like development is vitally necessary in the instance of cotton. Reduced export markets have forced a decline in the total consumption of American cotton despite consumption within America at record heights. The South is cotton country, must produce cotton in reasonable quantities, and minimum production can be continued indefinitely only at terrific final cost. To do this, markets for American cotton must be expanded by new uses and by extended uses in present fields of limited usage.

"The decision of Congress to inaugurate and properly support a laboratory to devise and introduce new uses of cotton and cotton products is a dream that has finally come true.

"It may be remembered that back in 1931, when the present situation first became acute, commissioners of agriculture from the cotton states formed the Association for the Increased Use of Cotton. A series of meetings was held throughout Mississippi and the State Division and a number of county organizations were perfected. The great need then recognized was a cotton products laboratory, and efforts to increase the use of cotton were then hampered by the lack of information that can come only through such a laboratory. At the Mississippi Chemical Conference held in April 1937, a cotton laboratory was recognized as essential to permanent

cotton prosperity and by resolutions unanimously approved by those in attendance, I wired Southern Congressmen and Senators asking their support of Senator Bilbo's bill to establish such a laboratory, which was finally included in the Agricultural Adjustment Act of 1938.

"It is to be hoped that the laboratory may be established in Mississippi, heart of the cotton belt, dividing point between extremes of production methods in the Southeast and Southwest, and home of the best cotton produced in any typical cotton state."

### LIVE-AT-HOME PRACTICES CUT CASH EXPENDITURES

Jackson, Miss., March 2—Further proof that cash expenditures can be materially reduced on Mississippi farms by following live-at-home farm and home management practices is seen in a recent survey made here by George Reynolds, state director of the Farm Security Administration.

The survey shows that the average rehabilitation loan made to creditless farmers in Mississippi by the FSA dropped from \$325 in 1936 to \$177 in 1937.

The smaller loan, Reynolds said, is directly attributable to the fact that FSA farmers are following sound live-at-home practices by which they are producing on the farm many of the essentials that are purchased under the one-crop system of farming. The FSA program places as much emphasis on producing ample food for the family and feed for livestock as on the cash crop.

Although the average FSA farmer is getting along on about half of what it once required, his family's living standard has been substantially improved and he has increased his assets from about \$261 in 1936 to \$388 in 1937.

Reynolds said the wives of the 10,197 FSA farmers in Mississippi canned 1,770,077 quarts of vegetables, fruits and meats last year, or about 35 quarts for each member of the family. Substantial strides were made in supplementing cash income with poultry, dairying and livestock. Practically all FSA farmers in the state produced more than enough feed last year to winter their livestock.

## Right in the Pocketbook!

NEWS ITEM: Homeowners are protesting the proposal of Representative Boland, of Pennsylvania, to put a "tax on comfort" by imposing a 1c per gallon levy on fuel oil used for heating homes. It is estimated the tax would add more than \$20 a year to the heating bill of the average small home.

### SIRE RINGS BENEFIT 3,231

Jackson, Miss., March 3—Ninety-three purebred livestock cooperative projects sponsored by low-income farmers with loans from the Farm Security Administration, benefitted 3,231 Mississippi farmers in 1937, Marshall E. Cole, FSA community and cooperative chief here, announced. Other loans for

syrup manufacturing units, heavy farm equipment, hatchery, plant production, veterinary and medical services directly benefitted another 1,404 farmers of limited means last year.

### TIME FOR COMMUNITY IMPROVEMENT EXTENDED

Jackson, Miss., March 3—Extension until midnight Saturday, March 12, of the deadline for filing reports in the Mississippi Community Improvement Appraisal was announced today by Howard Suttle, supervisor of the inventory, designed to determine the benefits of work relief in the state.

The extension from March 8 was granted from Washington due to the fact that the appraisal, scheduled to begin February 1, was not inaugurated in Mississippi until February 5, Suttle said.

Citizens not connected with any work relief program, either as officials or sponsors, were invited by the supervisor to write him expressing their opinions as to whether the program has been worthwhile.

"The appraisal is a sincere and honest attempt to evaluate the benefits of work relief under the CWA, ERA, WPA, NYA and other relief agencies," he said.

"We are extremely anxious that Mississippi's report be complete and comprehensive, for we believe that the result of the inventory will largely influence the attitude of the federal government toward future work relief."

The appraisal is set up in three divisions—state, county and municipal. State officials and sponsors of state projects are invited to cooperate in the former. Boards of supervisors and county officials are requested to report on county projects and municipal officials are asked to evaluate the program and its results in the towns and cities.

The inventory is sponsored jointly by the State Planning Commission and Works Progress Administration.

## STOMACH DISCOMFORT?

Many adults who think their backs ache or their stomachs are uncomfortable may actually have indigestion or stomach trouble. Indigestion is a common ailment, and it can be caused by many factors, such as eating too much, eating too fast, or eating the wrong kind of food. It can also be caused by a weak stomach or by a disorder of the digestive system. If you are suffering from indigestion, you should consult your doctor. He will be able to tell you what is causing the trouble and what you can do to get rid of it. In the meantime, you can try some of the following remedies: eat small meals, eat slowly, and avoid fatty and spicy foods. You can also try taking some of the following medicines: antacids, laxatives, or stomachics. These medicines can help to relieve the symptoms of indigestion, but they do not cure the underlying cause. If you are still having trouble, you should see your doctor again.

AYNES VERMIFUGE  
DIET-KENT DRUG COMPANY

periment Stations in North, South, East and West Mississippi, show that complete fertilizer containing from 8 percent to 12 percent potash are leading in yields and net profits. Demonstrations conducted in farms in all the important farming areas of the state, also have shown these mixtures to be more profitable. Farmers are, therefore, urged to consider these facts before purchasing cotton fertilizers.

The following profits are typical of the results from 4-8-8 and 6-8-8 as compared with other mixtures:

East Mississippi—Kemper County (Profits over no fertilizer)

4-8-8, Net Profit, \$13.78 per acre  
4-8-4, Net Profit, \$ 8.14 per acre  
6-8-4, Net Profit, \$ 7.75 per acre  
8-8-4, Net Profit, \$ 6.09 per acre  
West Mississippi, Yazoo County  
6-8-8, Net Profit, \$16.44 per acre  
6-8-4, Net Profit, \$ 7.08 per acre  
South Mississippi, Pike County  
4-8-12, Net Profit, \$28.59 per acre  
4-8-8, Net Profit, \$26.56 per acre  
6-8-4, Net Profit, \$19.99 per acre  
8-8-4, Net Profit, \$18.49 per acre  
4-8-4, Net Profit, \$18.18 per acre

Tests conducted on bottom land at Holly Springs, and at State College, also show that complete fertilizers containing 8 percent or more of potash have led all other mixtures over a period of eleven years or more.

Sufficient amounts of potash in the cotton fertilizer not only increase yields but also control wilt and rust, produce heavier seed, larger bolls, a higher lint percentage, a better grade, a longer staple, a stronger fiber, a lower per-

centage of weak fibers, and make the cotton easier to pick.

### F. D. R. GETS RELIEF BILL

Washington, D. C. March 3—Final house approval sent to the White House a \$250,000,000 emergency relief appropriation for the next four months.

Representatives accepted with little debate the report of a joint-senate conference committee to which the senate agreed. This report eliminated a previous

house proposal that no part of the fund could be used to help Aliens who had not signed their intention to become citizens. It retained provisions of the so-called Woodrum amendment providing for apportioning the money over all four months.

## Coles Creek News

(Too late for last week)  
Rev. Siles filled his appointment at Shiloh last Sunday afternoon with very good attendance, considering the weather. He brought a message from Heb. 13th chapter and 9th verse, "Jesus Christ the same yesterday and today and forever." Come hear him again the first and third Sunday afternoons. Sunday school in the morning on all other Sundays except first and third. Come to Sunday school.

Mrs. Walter Clark, of California, is visiting relatives in this community at this time.

Mrs. W. H. Carter and daughter, Wilma, visited in the home of Mr. A. F. Clark last Sunday.

Mrs. Wm. Crenshaw, and Mrs. Jim Gullede were guests of Mrs. M. O. Gray and Mrs. Carmack Merritt last Monday.

Mrs. Vandene Crenshaw called on Mrs. Price Jones last Monday.

We are very glad to learn that Mrs. Willis Todd is back at home.

doing nicely after undergoing an operation for appendicitis at Grenada Hospital.

Miss Alice Cook has entered training at Grenada Hospital. Hope she makes good. Good luck to you Alice.

Mr. and Mrs. Edgar Trusty were visitors in the home of Mr. and Mrs. M. O. Gray and Mrs. Carmack Merritt last Sunday afternoon.

Little Dan Oliver Merritt is suffering very much with tonsillitis this week. Hope he will soon be well again.

Miss Mildred Clark is able to be up again. Hope you will stay well this time Mildred.

Mrs. Frank Spears is almost helpless. She is at her daughter's, Mrs. Kate Gray.

## Cole's Creek News

The W. M. S. met Monday, Feb. 28th with Mrs. T. S. Schmitt and observed the March Week of Prayer. A good offering was taken.

We are sure that it was given with much self-denial and we hope it to be at least a ten percent increase over last year's offering.

Mr. and Mrs. Erwin Gray, of Gore Springs, welcomed from here all of their brothers and sisters and their families, except one, as their guests Sunday.

The flu seems to be raging in this community. Several families are suffering with attacks of it now.

Mrs. M. O. Gray now has a severe case of tonsillitis, due to cold.

Mr. and Mrs. E. L. Trusty and children spent Saturday night and Sunday with the latter's father, Mr. Lenn Johnson, of Gore Springs.

Mr. and Mrs. Brower spent Sunday with their parents, Mr. and Mrs. Waddell.

Mrs. Walter Clark is planning to leave here for her home in California, Wednesday, March 2nd. Her visit here has been a pleasant one and we hope her return will be successful and that she will come again soon.

Mr. and Mrs. Lee Roy Smith enjoyed a visit from their relatives of near Big Creek Sunday.

Miss Ruth Rounsaville, who has been attending school at Gore Springs, came home sick one day last week, and has not been able to return yet.

Mr. T. P. Haile and son, David, of Gore Springs, made a business call to Mr. M. O. Gray's Monday evening.

Mr. and Mrs. Oda Brannin have moved into their new home that has recently been built on Hubert Clark's place.

Mr. Neal Anderson and Mr. Wilbourn Hall were seen wandering about Sunday afternoon. Such a pleasant day for strolling for two seemingly pleasant boys.

Mr. and Mrs. Willie Crenshaw spent Sunday with their son and his wife, Mr. and Mrs. Marion Crenshaw, who have recently moved on Mr. Buddy Hall's place.

We are again looking for Rev. Siler Sunday afternoon at Shiloh for this is his regular appointed time to preach.

Mr. Fred Clark, who is in college at Goodman, spent the week-end with home folks.

Miss Sarah Hendrix, who has been away for some time visiting at different points, returned home Monday.

Mrs. Lula Hendrix and granddaughter, Helen Ruth, spent last week-end with Mrs. R. T. Suggs.

The W. M. S. will meet on Monday after the second Sunday with Mrs. T. W. Anderson to have their regular program.

## Don't put up with useless PAIN

Get rid of it

When functional pains of menstruation are severe, take CARDUL. If it doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance.

Get a bottle of Cardul and see whether it will help you, as thousands of women have said it helped them.

Besides easing certain pains, Cardul aids in building up the whole system by helping women to get more strength from the food they eat.

## Providence News

Mr. and Mrs. Lester Carpenter are very proud of their new 1937 Plymouth car.

Miss Essie Joe Windham and Marie Byrd spent Monday night with Ora Bell Lott.

Little Thomas Williams made a short visit to see Pindall Sultan Sunday morning.

Mr. Alton Martin filled his place at Pleasant Grove Church Sunday morning.

Mrs. Bob James and two daughters, Irene and Margie, spent Sunday in the home of Mr. and Mrs. J. B. Lott.

Mr. and Mrs. Guy Sultan and daughter, Marguerite, spent a few hours in the home of Mr. and Mrs. J. R. Calley.

Mr. and Mrs. Nute Collins and family spent the week-end with Mrs. R. B. Jones.

Mr. and Mrs. Walter Worsham spent Sunday with Mr. and Mrs. Buford Martin, also Mr. and Mrs. Willie Lee Martin called to see them a few minutes.

Mr. Robert Gaston Sultan spent Sunday with Mr. and Mrs. Fred Sultan.

Mr. and Mrs. Birl Willed visited Mr. J. J. Gray Sunday.

## Wayside News

We are so sorry that we have so many on the sick list. But truly hope they will soon be O. K.

Although Mrs. Guy Fred Polan was sick in bed on her birthday last Friday, February 25th, the ladies surprised her with a little birthday party from one till four o'clock Friday afternoon.

Mrs. Henry Polan was the teacher of the school. She asked lots of question that we ladies had to stay in on at recess time.

But oh how our faces did brighten when the table was filled with different things to eat. Mrs. Polan received ten useful presents of which she seemed so proud.

Mr. and Mrs. Harroll Lee Todd were guests of her parents, Mr. and Mrs. G. W. Martin, and Sunday guests of her brother and family, Mr. and Mrs. Brewer Martin.

Mr. G. L. Tribble was a Sunday night guest of Vernon Cook.

Mr. and Mrs. Harvey Tribble's dinner guests Sunday were Mr. and Mrs. Lucy Wilbourn and two children, Mr. and Mrs. Adron Wilbourn and two sons, and their supper guests were Vera Gahagan, Tom Williams, Rex Little and Bradley Cooper.

Mr. Doe Tribble and sister, Vera were week-end visitors of the Williams and DuBois, of Taylor Chapel.

Mr. and Mrs. Henry Pollan spent a few hours Sunday night with Mr. and Mrs. John Tribble.

## Scobey News

Miss Annie Bett Geeslin celebrated her fifteenth birthday Sunday with a big dinner. Her dinner guests were: Miss Martha Jean Sayles, Messrs. Getty Wells and Carson Hughes, Jr., of Oakland, Mr. Charles Crawford, of Tillatoba, Misses Annie Claire McSwine, Marilyn Howell and Mr. John Hill Martin, of Scobey.

News has reached here that Mr. and Mrs. Austin (Dudy) Jennings, of Tutwiler, are the proud parents of a fine 9½ pound boy born Feb. 12th. The little young man has been named Loyd Austin, Jr.,

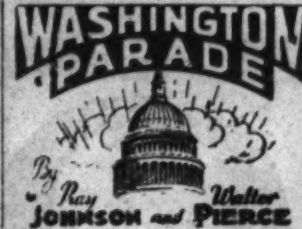

Mrs. Sam Holland, Mrs. L. B. Carr and daughter, Lillie, drove to Batesville Saturday night for Mrs. Holland's husband, who spent the week-end with his wife.

Rev. G. T. Sledge, of Duck Hill, filled his regular appointment here Sunday morning and night.

Little Lila Ann Wallace, of Oak land spent Sunday night with her grandfather, Mr. J. M. Wallace, and aunt, Mrs. Winnie McSwine.

Do not forget the Blackwood Brothers Quartet of Kosciusko, will appear in person at Scobey school building Friday night, March 11th at 7:30 o'clock. Everyone is invited to attend.

Mr. Gray Harrison is Mr. P. S. Clements', our rural carrier's substitute since Mr. Jason Jordan has gone to a position in Baltimore, Maryland.

Washington, D. C., March 3—

The whirligig of events in Europe has so usurped the front pages that our lawmakers have been able to sit back and relax and be themselves for the first time in years—secure in the knowledge that they are momentarily out of the public eye. And because of this temporary lessening of domestic tension official Washington has found much to chuckle about.

The Dash of Philippine High Commissioner Paul V. McNutt from Manila to Washington to "report" to President has been variously labeled "Paul Revere's ride" and "Sheridan's ride" and even, by the more ribald, "John Gilpin's ride" for it is openly hinted that it was the commissioner's desire to "report" himself available as a presidential candidate caused the sprint.

It is said that Mr. Roosevelt has watched the proceedings with mild amusement and it is certain that the astute Mr. Farley would not be interested in attempting to explain to the homespun vote the antics of Mr. McNutt in Manila when the high commissioner put on a very creditable imitation of a Fascist Governor of Ethiopia.

A new "state products" battle has amused the Senators—who have at various times been asked to render judgment between Florida and California oranges, Maine and Idaho potatoes, and Georgia and Delaware peaches. This time it is cheese—New York and Wisconsin—and the apparently unlimited number of cheese, hard and soft, cream and curd, have made peaches and potatoes and oranges seem very simple things indeed.

Dr. Briggs of the Bureau of Standards has suddenly discovered that it is "intolerable" that our official "inch" should be one-two millionth longer than the British inch and proposes to change ours without ado. Staunch Americans suggest that Britain in her present conciliatory mood might be willing to make the change—always provided Rome approved.

It is no secret here that nearly every important official of what-

(Week Ending February 26)

(By Congressman A. L. Ford)

The Anti-Lynching Bill is dead. It was killed in the Senate February 27, the day before George Washington's birthday. The stage had been set for a vote on the bill, that he had done all within his power to secure a vote, and that the relief appropriations bill was ready to be taken. He therefore moved to lay aside the Anti-Lynching Bill. Senator Wagner of New York protested. Then, Senator Norris of Nebraska took the floor. He said that he thought it would be a bad mistake if the Congress should pass the anti-lynching bill. The Senate then voted to lay aside the bill 58 to 22.

It immediately proceeded to the consideration of the \$250,000,000 supplementary relief appropriation bill.

ever political party is disappointed but not surprised at the course of British affairs in the European mixup. There is scarcely an official who is not opposed—unofficially, of course, to the dictatorship whether they are Nazi, Communist, Fascist or the half a dozen variations between Roumania and Japan.

The feeling, too, is that Britain has made a mistake in giving tacit approval to the land grabs of Hitler and Mussolini and the Mikado. Britain is, of course, playing for time—hoping that the Fascist nations will tear themselves to pieces and collapse of their own centrifugal force. And that, as one of our elder and more cynical Senators confided the other day is like the woman who marries a man to reform him—and when he doesn't—keeps on living with him in hopes: and as the Senator concluded—"It's usually the woman that's busiest first."

tion: bill, which ran into stony opposition and was not passed until Wednesday. The roll call vote was 17-0 passage of the bill was surprising, 68 to 1.

On Monday, the House quickly passed, without a roll-call vote, the bill extending the operation of the Frazier-Lemke Act for two more years, until March 4, 1940.

Final passage by both Houses was given to an item of two million dollars to be used by the Department of Agriculture in fighting insect pests.

Friday, the Senate passed the Independent Offices Appropriations Bill, which is of interest chiefly because of a \$2,763,000 increase in the appropriations for the Tennessee Valley Authority, and because of an increase in the appropriations for rural electrification.

At adjournment for the week, the House was still considering the Interior Department Appropriation Bill.
